PARP (POLY [ADP-RIBOSE] POLYMERASE), Human, Recombinant
Control for Immunoblotting

Product Number P4730
Store at –20°C

Product Description
Crude protein extract of *E. coli* expressing human poly[ADP-ribose] polymerase (PARP).

Recombinant human PARP (poly [ADP-ribose] polymerase) is Ready-To-Use as a positive control in immunoblotting techniques.

Reagents
Solution at 0.5 mg/ml in SDS-PAGE loading buffer.

Product Profile
For SDS-PAGE as a positive control, the recommended use is 5-10 µg (10-20 µl) per gel lane.
