Supelco Chemical Reference Material Packaging Services

Supelco Chemical Reference Material Packaging Services

For more information about how our materials repackaging service can help your organization reduce costs and maximize output, please call 877-787-4437.

Offering precision, small unit packaging for preserving material integrity

Let Sigma-Aldrich-Supelco Help You with Your Chemical Packaging Needs

Focus on Value

Supelco's Chemical Reference Material Packaging Service provides an economical means to repackaging bulk chemical and reference materials into small unit packages. Our 40 years of work experience with environmental, chemical, diagnostics and pharmaceutical industries have resulted in the development of specialized packaging services to help you:

- Increase capacity without increasing headcount
- Reduce costs associated with specialized packaging and distribution
- Ensure product traceability and quality
- Meet your customer's packaging and labeling needs

Facility & Staff

We have a dedicated manufacturing facility, equipment, and staff for repackaging most chemical reference materials.

Our packaging processes are part of our **Quality Management System** which is registered to ISO 9001:2000.

Every step in the packaging process is documented and a copy of these records is provided to each customer at the end of every project.

OUR SPECIALTIES INCLUDE:

- Calibration Standards
- Process & Quality Control Standards
- Pharmaceutical Reference Materials
- Repository Samples
- Single or Multi-site Method Development Studies
- "Trial-size" Product Evaluation Samples

PACKAGING CAPABILITIES:

- Automated Ampul Filling and Sealing
- Inert Atmospheric and Low Light Packaging
- Liquids, Powders and Other Solids
- Ampuls, Vials, and Bottles
- Quantities from 10 to 100,000+

ADDITIONAL SERVICES:

- Chemical Sourcing and Custom Formulation
- Private or OEM Labeling and Packaging
- Analytical Testing
- Documentation Supporting Audits
- Bar Coding and Sequential Labeling of Packaged Units
- Inventory Management and Worldwide Distribution Scheduling Agreements
