

Price Increase for Handling and Shipping Charges - UK

With effect from October 15th a price increase will be applied to all UK shipping and handling charges.

Whilst the cost of delivering goods has significantly increased over the past four years, Sigma-Aldrich has made every effort not to pass these increases on to our valued customers. Unfortunately we are no longer able to maintain the charges at the current level and have reluctantly made the decision to apply a small increase, as detailed below.

<u>Route / Service</u>	New Price
FedEx UK - Next Day	£13.50
FedEx UK - 9am	£50.00
FedEx UK - 10am	£37.00
