

Bioguarantee

Antibodies

Introducing The Antibody Bioguarantee Program on all antibody purchases from Sigma Life Science.

We invite you to evaluate our antibody products *with complete peace of mind*.

If our antibody does not perform in your application of interest, or species specificity, we will issue a full credit or replacement antibody product – **Bioguaranteed***.

Benefits:

- **15% Discount** - plus Bioguarantee
- **Save Time** - Guaranteed Quality or your money back
- **Save Money** - Test Sigma Antibodies without any risk

Sigma-Aldrich now offers over 40,000 antibodies:

Broad Range

- Thousands of Monoclonal & Polyclonal Primary antibodies
- Hundreds of Secondary antibodies & conjugates
- Antibodies produced in goat, mouse, rabbit, rat, chicken and other hosts

Detailed application testing and validation

- WB, IHC, IF, ELISA, ChIP, Flow Cytometry & more

Delivering the same quality & service you experience with all Sigma products

How to use the SIGMA Antibody Bioguarantee

** To qualify for this offer please ensure you quote promotion code **W17** with every order.

What will you get?

15% discount for new purchases only.** If the antibody does not work in your application you will be issued a full refund, or a replacement antibody product.

What happens if the antibody does not give the expected result?

Simply complete the Antibody Bioguarantee Form on line at:

wherebiobegins.com/bioguarantee

We will issue a full credit or replacement antibody product – Bioguaranteed*.

How do you find your antibody of interest?

Simply go to **wherebiobegins.com/antibodyexplorer**

Any Restrictions?

Cannot be used in conjunction with any other offer.

*Experimental results must be submitted via the **Antibody Bioguarantee Form** within 12 months of the date of purchase (wherebiobegins.com/bioguarantee). All required fields of the Antibody Bioguarantee Form must be completed. Refunds and replacements contingent to claim review by technical service team. Credit covers the cost of antibody. Product replacements depend on product availability.
