About the Author

Steve Charnock-Jones received his Ph.D. from the University of Cambridge in the UK. He then carried out his postdoctoral research in the laboratory of Dr. Sydney Brenner within the Medical Research Council's Molecular Genetics Unit in Cambridge. Dr. Charnock-Jones is currently University Reader in the Department of Obstetrics and Gynecology at the University of Cambridge where his research focuses on reproductive angiogenesis.

Vascular Endothelial Growth Factor (VEGF) Products Available from Sigma-RBI**Antibodies**

- V 1253 **Anti-Vascular Endothelial Growth Factor A** (goat)
 V 6627 **Anti-Vascular Endothelial Growth Factor A** (goat)
 V 1010 **Anti-Vascular Endothelial Growth Factor B 167/186** (goat)
 V 1264 **Anti-Vascular Endothelial Growth Factor C** (goat)
 V 6134 **Anti-Vascular Endothelial Growth Factor D** (goat)
 V 0885 **Anti-Vascular Endothelial Growth Factor D** (goat)
 V 1139 **Anti-Vascular Endothelial Growth Factor Receptor-1** (goat)
 V 1014 **Anti-Vascular Endothelial Growth Factor Receptor-2** (goat)
 V 2884 **Anti-Vascular Endothelial Growth Factor Receptor-3** (goat)
 V 1135 **Anti-Vascular Endothelial Growth Factor Receptor-3** (goat)
 V 4758 **Monoclonal Anti-Vascular Endothelial Growth Factor** (mouse), Clone 26503.11
 V 4762 **Monoclonal Anti-Vascular Endothelial Growth Factor Receptor-1** (mouse), Clone FLT-19
 V 4262 **Monoclonal Anti-Vascular Endothelial Growth Factor Receptor-1** (mouse), Clone FLT-11
 V 9134 **Monoclonal Anti-Vascular Endothelial Growth Factor Receptor-2** (mouse), Clone KDR-1
 P 3868 **Monoclonal Anti-Placenta Growth Factor** (mouse), Clone 37203.111
 P 3493 **Monoclonal Anti-Placenta Growth Factor-2** (mouse), Clone 62526.111
 V 5014 **Anti-phospho-VEGF Receptor-2 [pTyr¹⁰⁵⁴/pTyr¹⁰⁵⁹]** (rabbit)
 V 5389 **Anti-phospho-VEGF Receptor-2 [pTyr¹⁰⁵⁴]** (rabbit)
 V 5264 **Anti-phospho-VEGF Receptor-2 [pTyr¹²¹⁴]** (rabbit)
 V 5239 **Anti-phospho-VEGF Receptor-2 [pTyr⁹⁵¹]** (rabbit)

Receptors

- V 1385 **VEGF Receptor-1 (Flt-1)/Fc Chimera, human**
 V 6137 **VEGF Receptor-1 (Flt-1)/Fc Chimera, mouse**
 V 6758 **VEGF Receptor-2 (Flk-1, KDR)/Fc Chimera, human**
 V 6883 **VEGF Receptor-2 (Flk-1, KDR)/Fc Chimera, mouse**
 V 1260 **VEGF Receptor-3 (Flt-4)/Fc Chimera, human**
 V 6633 **VEGF Receptor-3 (Flt-4)/Fc Chimera, mouse**

Proteins

- P 1588 **Placenta Growth Factor, human, recombinant, expressed in *E. coli***
 P 5739 **Placenta Growth Factor-2, mouse, recombinant, expressed in *Sf* 21 cells**
 V 7259 **Vascular Endothelial Growth Factor, human, recombinant, expressed in *E. coli***
 V 4512 **Vascular Endothelial Growth Factor, mouse, recombinant, expressed in *E. coli***
 V 6012 **Vascular Endothelial Growth Factor D human, recombinant, expressed in *Sf* 21 cells**

Inhibitors

- L 2400 **Lavendustin A**
 Inhibits VEGF-induced angiogenesis.
- T 4192 **SU1498**
 Potent and selective VEGF receptor kinase, Flk-1 inhibitor; very weak PDGFR-kinase, EGFR-kinase and HER-2 kinase inhibitor.
- S 8567 **SU4312**
 Vascular endothelial growth factor (VEGF) receptor protein tyrosine kinase 1/2 and platelet derived growth factor (PDGF) receptor inhibitor.
- S 8442 **SU5416**
 Vascular endothelial growth factor (VEGF) receptor protein tyrosine kinase 1/2 inhibitor.
- T 0318 **Tranilast**
 Inhibits VEGF-induced angiogenesis *in vivo* and has also been shown to inhibit proliferation and tube formation of human endothelial cells *in vitro*.
- T 5317 **Tyrphostin AG 1433**
 PDGFR β receptor tyrosine kinase inhibitor; inhibits VEGF-induced angiogenesis.
