Report of Analysis

Analysed for Honeywell Specialty Chemicals Seelze GmbH, Sales Support, Wunstorfer Str. 40, D-30926 Seelze

Product: HYDRANAL®- Standard Sodium Tartrate Dihydrate, Cat. No.: 34696, Lot: SZBG141AV

The water content of this lot is: 15.71 % ± 0.07 % (k=2; 95% confidence interval)

The water content is analysed by volumetric Karl Fischer titration. The stated value is the mean of ten measurements at five individual samples. The standard is traceable to high-purity water and tested against NIST SRM 2890.
