DESIGNED TO YOUR NEEDS

THE SUM OF EACH ELEMENT:
Steritest™ NEO device

Our expertise in sterility testing dates back over 40 years from when we invented the original Steritest™ closed filtration system, which changed sterility testing forever.

We are, once again, raising the industry standards, and driving innovation to provide you the most secure and reliable test ever.

The 4th generation of Steritest™ devices is enriching with some additional elements contributing to significantly improve your workflow safety, reliability and convenience.

THE EVOLUTION OF CONVENIENCE

Feel calm: a brand new short needle for small sample containers
Experience dexterity with the new 20 mm length needle when piercing cartridges or small soft plastic containers, without compromising the flow rate.

Feel comfortable: new placement mark
Be sure to place the Steritest™ NEO tube in the pump head precisely by using the new placement mark.

Feel free: upgraded accessory bag
Simplified opening of the accessory bag improves your workflow convenience thanks to the pre-cut line.

Feel flexible: protective caps for long needles are now in 2 parts
The protective cap in 2 parts gives access to either a short (35 mm) or a long (60 mm) needle designed to fit your sample packaging configuration. Color-coded protectors help you to differentiate the needle type once covered.

Feel confident: colored clamps
Prevent any filling errors and improve your workflow clarity, thanks to the pre-installed colored clamps and the existing blackline for accurate media filling.

Feel safer: new designed needle guard and needle protector
Grips on the guard and ridges on the protector improve the confidence in needle manipulation.

THE EVOLUTION OF SAFETY

Feel confident: colored clamps
Prevent any filling errors and improve your workflow clarity, thanks to the pre-installed colored clamps and the existing blackline for accurate media filling.

Feel free: upgraded accessory bag
Simplified opening of the accessory bag improves your workflow convenience thanks to the pre-cut line.

Feel comfortable: new placement mark
Be sure to place the Steritest™ NEO tube in the pump head precisely by using the new placement mark.

Feel calm: a brand new short needle for small sample containers
Experience dexterity with the new 20 mm length needle when piercing cartridges or small soft plastic containers, without compromising the flow rate.
Feel peaceful: optimized identification and traceability

Clear packaging identification: The selection of the appropriate box of Steritest™ NEO devices is facilitated thanks to the new designed label using color coding linked to canister base color and using a needle/application drawing.

Feel sure: volume graduation on the canisters

Be precise and improve your workflow accuracy through the addition of a 25 mL graduation line and volume engraved in the Steritest™ NEO canisters.
