AACC 2020 Annual Scientific Meeting & Clinical Lab Expo

Welcome to MilliporeSigma at AACC 2020! Visit our [virtual booth](#) and speak to our Diagnostics Solutions team about our latest innovations, technical posters and your clinical chemistry needs.

We provide fit-for-use products and knowledgeable support for IVD manufacturers and clinical testing labs including:

- ISO 13485 Contract Manufacturing Services
- Critical Raw Materials
- Molecular Diagnostics
- Immunoassays
- Milli-Q® Water Purification

Whether you are developing a new assay, scaling up to prepare for manufacturing, mass producing an IVD kit, or are just exploring alternative options for your applications, our vast selection of fit-for-use products and innovative support services can accelerate your time to market. We offer the quality, consistency and documentation necessary for every step of your IVD commercialization process.

what we're talking about at AACC 2020 virtual...

[Milli-Q® Lab Water Solutions](#)

CLRW & biomedical water: pure water for biomedical labs

- Patented Elix® EDI and E.R.A.® technologies for reliable, constant source of CLRW and reduced water consumption
- Milli-Q® CLX 7000 connected purification systems provide an economical and reliable high-performance water purification solution for clinical analysers with pure water needs up to 3000 L daily.

[ISO 13485 Contract Manufacturing Services](#)

Reduce risk, remain compliant and accelerate development and manufacturing timelines by working with a single, trusted partner for all your contract manufacturing needs.

Critical Raw Materials for Assay Development

Distinctly unique customized critical raw materials for your IVD assay manufacturing

- [Fluorescent Estapor® Microspheres for lateral flow assays](#)
- [Estapor® Microspheres Critical raw materials for the manufacture of IVD and life science reagents](#)
- [ProClin™ Preservatives - among the most effective biocides in the IVD industry](#)
- [Probumin® BSA Products for buffers, non-specific blocking, protein stabilization and other diagnostic applications](#)

[Molecular Diagnostics](#)

- Custom oligos for commercial use
- Custom DNA primers, qPCR probes, and Next-Gen Sequencing (NGS) oligos for life science research, molecular diagnostics, and Laboratory Developed Tests (LDTs).

Visit our [Learning Center](#) for the Diagnostics industry

- Register for upcoming webinars and workshops
- Watch on demand webinars to improve your IVD assay techniques
- View videos to get tips on improving your supply chain security and assessing your risk
- Read articles to receive expert advice on unannounced audits, raw materials selection, supply chain security and supplier management
