VIP® Gold Test Devices Reduce Your Pathogen Testing Costs

Improved Lab Efficiency

- VIP® Gold Test Devices offers an innovative multi-test format with breakaway devices designed for maximum flexibility.
- Ideal for low and high volume test days.
- Reduces set up time required with individual lateral flow devices or strips.
- 2 x 10 test device layout facilitates quick and easy transfer of sample to device and efficient data recording.

Advanced Technology

- Cutting edge particle technology allows for faster sample flow, producing a clean background and crisp, clear lines.
- Simple, easy to read lines provide unambiguous results.
- Superior housing design protects the test strip and ensures even and consistent sample flow.

Reduced Testing Costs

- Easy 1-step enrichments for *Listeria*, *Salmonella*, and *E. coli* O157 eliminate sample transfers and reduce labor.
- Simple assay protocol requires minimal hands-on time.
- No additional capital equipment such as readers, washers, etc.

VIP® Gold Test Devices for *Listeria*

Labor saving, single-step enrichment protocol that eliminates sample transfers reducing hands-on time and saving money. Specifically validated for both food and environmental samples, it's the ideal test for HACCP programs.

VIP® Gold Test Devices for EHEC

Accurate, simple and rapid. Results are available in as few as 8.5 hours. Specifically validated for a variety of sample matrices including raw beef, produce, and fruit juice.

VIP® Gold Test Devices for *Salmonella*

This innovative test for *Salmonella* provides single-step enrichment with next-day results for environmental samples and select foods. VIP Gold provides complete *Salmonella* serotype coverage.

Part Name	Item Number	Quantity
VIP® Gold Test Devices for EHEC	60036-40	(40 Tests)
VIP® Gold Test Devices for <i>Listeria</i>	60037-40	(40 Tests)
VIP® Gold Test Devices for <i>Salmonella</i>	60038-40	(40 Tests)

<i>Listeria</i>	EHEC	<i>Salmonella</i>
AOAC Official Method: 997.03	AOAC Official Method: 996.09	AOAC Official Method: 999.09
AOAC Performance Tested Method: 060801		AOAC Performance Tested Method: 031801
