

Product Information

Duolink® In Situ Wash Buffer, Brightfield

Catalog Number **DUO82047**

Store at Room Temperature

Product Description

Duolink® In Situ Wash Buffer, Brightfield (Wash Buffer A) is used to wash specimen slides during Duolink In Situ Brightfield procedures.

The powdered Wash Buffer A comes in convenient pouches with sufficient powder to prepare 1 L.

Precautions and Disclaimer

This product is for R&D use only, not for drug, household, or other uses. Please consult the Safety Data Sheet for information regarding hazards and safe handling practices.

Preparation Instructions

Preparation of 1× Buffer Solution (Wash Buffer A)

1. Add 700 mL of ultrapure water to a vessel with a capacity of 1 L.
2. While stirring, add the contents of 1 pouch of powdered Wash Buffer A. Stir until completely dissolved.
3. Rinse the pouch with a small volume of ultrapure water to remove traces of the powder. Add to the solution in step 2.
4. Add ultrapure water to bring the final volume to 1 L.

Storage/Stability

Store the powdered buffer pouches at room temperature.

1× solutions may be kept at room temperature for short term storage (one week or less). For long term storage, store at 2–8 °C.

Procedure

Bring the solutions to room temperature before use.

The experimental procedures for Duolink In Situ Brightfield applications can be found at sigma.com/duolink.
