

# SAFETY DATA SHEET

according to the OSHA  
Hazard Communication Standard

Version 6.9  
Revision Date 07/14/2026  
Print Date 07/15/2026

## SECTION 1. IDENTIFICATION

### 1.1 Product identifiers

Product name : 2-(Diethylamino)ethyl methacrylate

Product Number : 408980  
Brand : Aldrich  
Index-No. : 607-127-00-6  
CAS-No. : 105-16-8

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses : Laboratory chemicals, Synthesis of substances

Restrictions on use : Not Available

### 1.3 Details of the supplier of the safety data sheet

Company : Sigma-Aldrich Inc.  
3050 SPRUCE ST  
ST. LOUIS MO 63103  
UNITED STATES

Telephone : +1 314 771-5765  
Fax : +1 800 325-5052

### 1.4 Emergency telephone number

Emergency Phone # : 800-424-9300 CHEMTREC (USA) +1-703-  
527-3887 CHEMTREC (International) 24  
Hours/day; 7 Days/week

---

## SECTION 2. HAZARDS IDENTIFICATION

### GHS classification in accordance with the OSHA Hazard Communication Standard (29 CFR 1910.1200)

#### Hazards for the product as supplied

Flammable liquids : Category 4

Acute toxicity  
(Inhalation) : Category 4

Aldrich - 408980

Page 1 of 14

Skin irritation : Category 2  
Eye irritation : Category 2A  
Skin sensitisation : Category 1

**Other hazards**

None known.

**GHS label elements**

Hazard pictograms :

Signal word : Warning

Hazard statements : H227 Combustible liquid.  
H315 Causes skin irritation.  
H317 May cause an allergic skin reaction.  
H319 Causes serious eye irritation.  
H332 Harmful if inhaled.

Precautionary statements : **Prevention:**  
P210 Keep away from heat/ sparks/ open flames/ hot surfaces. No smoking.  
P261 Avoid breathing dust/ fume/ gas/ mist/ vapours/ spray.  
P264 Wash skin thoroughly after handling.  
P271 Use only outdoors or in a well-ventilated area.  
P272 Contaminated work clothing must not be allowed out of the workplace.  
P280 Wear protective gloves/ eye protection/ face protection.  
**Response:**  
P302 + P352 IF ON SKIN: Wash with plenty of soap and water.  
P304 + P340 + P312 IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER/ doctor if you feel unwell.  
P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
P333 + P313 If skin irritation or rash occurs: Get medical advice/ attention.  
P337 + P313 If eye irritation persists: Get medical advice/ attention.  
P362 Take off contaminated clothing and wash before reuse.

P370 + P378 In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish.

**Storage:**

P403 + P235 Store in a well-ventilated place. Keep cool.

**Disposal:**

P501 Dispose of contents/ container to an approved waste disposal plant.

---

### SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Substance

CAS-No. : 105-16-8

**Components**

| Chemical name                      | CAS No./Unique ID | Concentration (% w/w) | Trade secret |
|------------------------------------|-------------------|-----------------------|--------------|
| 2-(Diethylamino)ethyl methacrylate | 105-16-8*         | $\geq 90 - \leq 100$  | -            |
| hydroquinone monomethyl ether      | 150-76-5*         | $\geq 0.1 - < 1$      | -            |

\* Indicates that the identifier is a CAS No.

Actual concentration is withheld as a trade secret

---

### SECTION 4. FIRST AID MEASURES

- General advice : Show this safety data sheet to the doctor in attendance.
- If inhaled : After inhalation: fresh air. If breathing stops: mouth-to-mouth breathing or artificial respiration. Oxygen if necessary. Immediately call in physician.
- In case of skin contact : In case of skin contact: Take off immediately all contaminated clothing. Rinse skin with water/ shower. Consult a physician.
- In case of eye contact : After eye contact: rinse out with plenty of water. Call in ophthalmologist. Remove contact lenses.
- If swallowed : After swallowing: immediately make victim drink water (two glasses at most). Consult a physician.
- Most important symptoms and effects, : The most important known symptoms and effects are described in the labelling (see section 2 GHS label)

Aldrich - 408980

|                            |                                          |
|----------------------------|------------------------------------------|
| both acute and delayed     | elements) and/or in section 11           |
| Protection of first-aiders | : For personal protection see section 8. |
| Notes to physician         | : No data available                      |

---

## SECTION 5. FIREFIGHTING MEASURES

|                              |                                                           |
|------------------------------|-----------------------------------------------------------|
| Suitable extinguishing media | : Foam<br>Carbon dioxide (CO <sub>2</sub> )<br>Dry powder |
|------------------------------|-----------------------------------------------------------|

|                                |                                                                                |
|--------------------------------|--------------------------------------------------------------------------------|
| Unsuitable extinguishing media | : For this substance/mixture no limitations of extinguishing agents are given. |
|--------------------------------|--------------------------------------------------------------------------------|

|                                       |                |
|---------------------------------------|----------------|
| Specific hazards during fire fighting | : Combustible. |
|---------------------------------------|----------------|

Vapours are heavier than air and may spread along floors.

Forms explosive mixtures with air on intense heating.

Development of hazardous combustion gases or vapours possible in the event of fire.

|                               |                                                           |
|-------------------------------|-----------------------------------------------------------|
| Hazardous combustion products | : Carbon oxides<br><br>Nitrogen oxides (NO <sub>x</sub> ) |
|-------------------------------|-----------------------------------------------------------|

|                                |                     |
|--------------------------------|---------------------|
| Specific extinguishing methods | : No data available |
|--------------------------------|---------------------|

|                     |                                                                                                                                                                                                                                |
|---------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Further information | : Remove container from danger zone and cool with water.<br>Suppress (knock down) gases/vapours/mists with a water spray jet.<br>Prevent fire extinguishing water from contaminating surface water or the ground water system. |
|---------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|                                        |                                                                                                            |
|----------------------------------------|------------------------------------------------------------------------------------------------------------|
| Special protective equipment for fire- | : Stay in danger area only with self-contained breathing apparatus. Prevent skin contact by keeping a safe |
|----------------------------------------|------------------------------------------------------------------------------------------------------------|

---

**SECTION 6. ACCIDENTAL RELEASE MEASURES**

|                                                                     |                                                                                                                                                                                                                                                                                                                                                                                        |
|---------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal precautions, protective equipment and emergency procedures | : Advice for non-emergency personnel:<br>Do not breathe vapours, aerosols.<br>Avoid substance contact.<br>Ensure adequate ventilation.<br>Keep away from heat and sources of ignition.<br>Evacuate the danger area, observe emergency procedures, consult an expert.<br>Advice for emergency responders:<br>Wear appropriate personal protective equipment, as indicated in Section 8. |
| Environmental precautions                                           | : Do not let product enter drains.                                                                                                                                                                                                                                                                                                                                                     |
| Methods and materials for containment and cleaning up               | : Cover drains. Collect, bind, and pump off spills.<br>Observe possible material restrictions (see sections 7 and 10).<br>Take up with liquid-absorbent material (e.g. Chemizorb® ). Dispose of properly. Clean up affected area.                                                                                                                                                      |

---

**SECTION 7. HANDLING AND STORAGE**

For precautions see section 2 GHS label elements

|                                                 |                                                                                                                              |
|-------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------|
| Advice on protection against fire and explosion | : Keep away from open flames, hot surfaces and sources of ignition.<br>Take precautionary measures against static discharge. |
| Advice on safe handling                         | : Work under hood. Do not inhale substance/mixture.<br>Avoid generation of vapours/aerosols.                                 |
| Further information on storage conditions       | : Tightly closed.                                                                                                            |
| Storage class                                   | : 10, Combustible liquids                                                                                                    |
| Recommended storage temperature                 | : Recommended storage temperature see product label.                                                                         |
| Further information on storage stability        | : Moisture sensitive.                                                                                                        |

## SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### Ingredients with workplace control parameters

| Components                    | CAS-No.  | Value type<br>(Form of exposure) | Control parameters /<br>Permissible concentration | Basis     |
|-------------------------------|----------|----------------------------------|---------------------------------------------------|-----------|
| hydroquinone monomethyl ether | 150-76-5 | TWA                              | 5 mg/m <sup>3</sup>                               | ACGIH     |
|                               |          | TWA                              | 5 mg/m <sup>3</sup>                               | NIOSH REL |

**Engineering measures** : No data available

### Personal protective equipment

Respiratory protection : required when vapours/aerosols are generated.

Our recommendations on filtering respiratory protection are based on the following standards: DIN EN 143, DIN 14387 and other accompanying standards relating to the used respiratory protection system.

Recommended Filter type: : Filter type ABEK

The entrepreneur has to ensure that maintenance, cleaning and testing of respiratory protective devices are carried out according to the instructions of the producer. These measures have to be properly documented.

### Hand protection

Remarks : required

Eye protection : Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).  
Safety glasses

Skin and body protection : protective clothing

Hygiene measures : Immediately change contaminated clothing. Apply preventive skin protection. Wash hands and face after working with substance.

---

## SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

|                                                     |                                                           |
|-----------------------------------------------------|-----------------------------------------------------------|
| Appearance                                          | : liquid                                                  |
| Colour                                              | : colourless                                              |
| Odour                                               | : No data available                                       |
| Odour Threshold                                     | : No data available                                       |
| pH                                                  | : No data available                                       |
| Melting point                                       | : No data available                                       |
| Boiling point/boiling range                         | : 176 °F / 80 °C (13 hPa)<br>Method: lit.                 |
| Flash point                                         | : 171 °F / 77 °C<br><br>Method: closed cup                |
| Evaporation rate                                    | : No data available                                       |
| Flammability (solid, gas)                           | : No data available                                       |
| Flammability (liquids)                              | : No data available                                       |
| Burning rate                                        | : No data available                                       |
| Upper explosion limit /<br>Upper flammability limit | : No data available                                       |
| Lower explosion limit /<br>Lower flammability limit | : No data available                                       |
| Vapour pressure                                     | : No data available                                       |
| Relative vapour density                             | : No data available                                       |
| Relative density                                    | : No data available                                       |
| Density                                             | : 0.922 g/cm <sup>3</sup> (77 °F / 25 °C)<br>Method: lit. |
| Water solubility                                    | : No data available                                       |
| Partition coefficient: n-<br>octanol/water          | : No data available                                       |
| Autoignition temperature                            | : No data available                                       |

|                           |                     |
|---------------------------|---------------------|
| Decomposition temperature | : No data available |
| Viscosity, dynamic        | : No data available |
| Viscosity, kinematic      | : No data available |
| Flow time                 | : No data available |
| Explosive properties      | : No data available |
| Oxidizing properties      | : No data available |
| Molecular weight          | : 185.26 g/mol      |
| Particle characteristics  |                     |
| Particle size             | : No data available |

---

## SECTION 10. STABILITY AND REACTIVITY

|                                    |                                                                                                                                                 |
|------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity                         | : Forms explosive mixtures with air on intense heating.<br><br>A range from approx. 15 Kelvin below the flash point is to be rated as critical. |
| Chemical stability                 | : The product is chemically stable under standard ambient conditions (room temperature) .                                                       |
| Possibility of hazardous reactions | : No data available                                                                                                                             |
| Conditions to avoid                | : Rust<br><br>Strong heating.                                                                                                                   |

## SECTION 11. TOXICOLOGICAL INFORMATION

### 11.1 Information on toxicological effects

#### Acute toxicity

Acute toxicity estimate Oral - 4,696 mg/kg

(Calculation method)

LD50 Oral - Rat - 4,696 mg/kg

Acute toxicity estimate Inhalation - 4 h - 11 mg/l - vapour (Calculation method)

LC50 Inhalation - 4 h - 11 mg/l - vapour

(Acute toxicity estimate)

Dermal: No data available

No data available

#### Skin corrosion/irritation

Remarks: No data available

#### Serious eye damage/eye irritation

Remarks: No data available

#### Respiratory or skin sensitization

No data available

#### Germ cell mutagenicity

No data available

#### Carcinogenicity

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

OSHA: No component of this product present at levels greater than or equal to 0.1% is on OSHA's list of regulated carcinogens.

#### Reproductive toxicity

No data available

No data available

#### Specific target organ toxicity - single exposure

No data available

#### Specific target organ toxicity - repeated exposure

No data available

#### Aspiration hazard

No data available

### 11.2 Additional Information

RTECS: OZ4150000

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

---

## SECTION 12. ECOLOGICAL INFORMATION

### Ecotoxicity

#### Components:

##### **2-(Diethylamino)ethyl methacrylate:**

Toxicity to fish : Remarks: No data available

##### **hydroquinone monomethyl ether:**

Toxicity to fish : LC50 (Oncorhynchus mykiss (rainbow trout)): 28.5 mg/l  
Exposure time: 96 h  
Test Type: flow-through test  
Analytical monitoring: yes  
Method: OECD Test Guideline 203

Toxicity to daphnia and other aquatic invertebrates : EC50 (Daphnia magna (Water flea)): 3 mg/l  
End point: Immobilization  
Exposure time: 48 h  
Test Type: static test  
Analytical monitoring: yes  
Method: OECD Test Guideline 202  
GLP: yes

NOEC (Daphnia magna (Water flea)): 0.68 mg/l  
Exposure time: 21 d  
Test Type: semi-static test  
Analytical monitoring: yes  
GLP: yes

Toxicity to algae/aquatic plants : EC50 (Pseudokirchneriella subcapitata (green algae)): 54.7 mg/l  
Exposure time: 72 h  
Test Type: static test  
Analytical monitoring: yes  
Method: OECD Test Guideline 201  
GLP: yes

### **Ecotoxicology Assessment**

Chronic aquatic toxicity : Harmful to aquatic life with long lasting effects.

### **Persistence and degradability**

#### Components:

##### **2-(Diethylamino)ethyl methacrylate:**

Biodegradability : Remarks: No data available

##### **hydroquinone monomethyl ether:**

Biodegradability : aerobic  
Inoculum: activated sludge  
Result: Readily biodegradable.  
Biodegradation: 86 %  
Exposure time: 28 d  
Method: OECD Test Guideline 301C

### **Bioaccumulative potential**

#### **Components:**

##### **2-(Diethylamino)ethyl methacrylate:**

Bioaccumulation : Remarks: No data available

##### **hydroquinone monomethyl ether:**

Bioaccumulation : Remarks: Bioaccumulation is unlikely.

### **Mobility in soil**

#### **Components:**

##### **2-(Diethylamino)ethyl methacrylate:**

Stability in soil : Remarks: No data available

##### **hydroquinone monomethyl ether:**

Distribution among : Adsorption/Soil  
environmental Koc: 55.7  
compartments Remarks: (Lit.)

### **Other adverse effects**

#### **Components:**

##### **2-(Diethylamino)ethyl methacrylate:**

Additional ecological : No data available  
information

### **Endocrine disrupting properties**

No data available

---

## **SECTION 13. DISPOSAL CONSIDERATIONS**

### **Disposal methods**

Waste from residues : Waste material must be disposed of in accordance with the national and local regulations. Leave chemicals in original containers. No mixing with other waste. Handle uncleaned containers like the product itself.

---

## SECTION 14. TRANSPORT INFORMATION

### International Regulations

#### IATA-DGR

Not regulated as a dangerous good

#### IMDG-Code

Not regulated as a dangerous good

#### Transport in bulk according to IMO instruments

Not applicable for product as supplied.

### National Regulations

#### 49 CFR

### Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

## SECTION 15. REGULATORY INFORMATION

### CERCLA Reportable Quantity

This material does not contain any components with a CERCLA RQ.

### SARA 304 Extremely Hazardous Substances Reportable Quantity

This material does not contain any components with a section 304 EHS RQ.

### SARA 302 Extremely Hazardous Substances Threshold Planning Quantity

This material does not contain any components with a section 302 EHS TPQ.

|-----------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>SARA 313</b> | : This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313. |
|-----------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## US State Regulations

### Massachusetts Right To Know

No components are subject to the Massachusetts Right to Know Act.

### Maine Chemicals of High Concern

Product does not contain any listed chemicals

### Vermont Chemicals of High Concern

Product does not contain any listed chemicals

### Washington Chemicals of High Concern

Product does not contain any listed chemicals

### The components of this product are reported in the following inventories:

US TSCA : All substances listed as active on the TSCA inventory

### TSCA list

No substances are subject to a Significant New Use Rule.

No substances are subject to TSCA 12(b) export notification requirements.

---
