

# SAFETY DATA SHEET

according to the OSHA  
Hazard Communication Standard

Version 6.13  
Revision Date 07/10/2026  
Print Date 07/11/2026

## SECTION 1. IDENTIFICATION

### 1.1 Product identifiers

Product name : Sodium selenite

Product Number : S5261  
Brand : Sigma  
Index-No. : 034-003-00-3  
CAS-No. : 10102-18-8

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses : Laboratory chemicals, Synthesis of substances

Restrictions on use : Not Available

### 1.3 Details of the supplier of the safety data sheet

Company : Sigma-Aldrich Inc.  
3050 SPRUCE ST  
ST. LOUIS MO 63103  
UNITED STATES

Telephone : +1 314 771-5765  
Fax : +1 800 325-5052

### 1.4 Emergency telephone number

Emergency Phone # : 800-424-9300 CHEMTREC (USA) +1-703-  
527-3887 CHEMTREC (International) 24  
Hours/day; 7 Days/week

## SECTION 2. HAZARDS IDENTIFICATION

### GHS classification in accordance with the OSHA Hazard Communication Standard (29 CFR 1910.1200)

#### Hazards for the product as supplied

Acute toxicity (Oral) : Category 2

Acute toxicity (Inhalation) : Category 2

|                                    |               |
|------------------------------------|---------------|
| Skin irritation                    | : Category 2  |
| Eye irritation                     | : Category 2A |
| Skin sensitisation                 | : Category 1  |
| Short-term (acute) aquatic hazard  | : Category 2  |
| Long-term (chronic) aquatic hazard | : Category 2  |

### Other hazards

Contact with acids liberates toxic gas.

### GHS label elements

Hazard pictograms :

Signal word : Danger

Hazard statements : H300 + H330 Fatal if swallowed or if inhaled.  
H315 Causes skin irritation.  
H317 May cause an allergic skin reaction.  
H319 Causes serious eye irritation.  
H411 Toxic to aquatic life with long lasting effects.

Precautionary statements : **Prevention:**  
P260 Do not breathe dust.  
P264 Wash skin thoroughly after handling.  
P270 Do not eat, drink or smoke when using this product.  
P271 Use only outdoors or in a well-ventilated area.  
P272 Contaminated work clothing must not be allowed out of the workplace.  
P273 Avoid release to the environment.  
P280 Wear protective gloves/ eye protection/ face protection.  
P284 Wear respiratory protection.

### Response:

P301 + P310 + P330 IF SWALLOWED: Immediately call a POISON CENTER/ doctor. Rinse mouth.  
P302 + P352 IF ON SKIN: Wash with plenty of water.  
P304 + P340 + P310 IF INHALED: Remove person to fresh air and keep comfortable for breathing.  
Immediately call a POISON CENTER/ doctor.  
P305 + P351 + P338 IF IN EYES: Rinse cautiously with

water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
P333 + P313 If skin irritation or rash occurs: Get medical advice/ attention.  
P337 + P313 If eye irritation persists: Get medical advice/ attention.  
P391 Collect spillage.

**Storage:**

P403 + P233 Store in a well-ventilated place. Keep container tightly closed.  
P405 Store locked up.

**Disposal:**

P501 Dispose of contents/ container to an approved waste disposal plant.

---

### SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Substance  
CAS-No. : 10102-18-8

**Components**

| Chemical name   | CAS No./Unique ID | Concentration (% w/w) | Trade secret |
|-----------------|-------------------|-----------------------|--------------|
| Sodium selenite | 10102-18-8*       | >= 80 - <= 100        | TSC          |

\* Indicates that the identifier is a CAS No.

TSC- the actual concentration or concentration range is withheld as a trade secret

---

### SECTION 4. FIRST AID MEASURES

General advice : First aiders need to protect themselves. Show this safety data sheet to the doctor in attendance.

If inhaled : After inhalation: fresh air. Immediately call in physician.  
If breathing stops: immediately apply artificial respiration, if necessary also oxygen.

In case of skin contact : In case of skin contact: Take off immediately all contaminated clothing. Rinse skin with water/ shower. Consult a physician.

In case of eye contact : After eye contact: rinse out with plenty of water. Call in ophthalmologist.  
Remove contact lenses.

|                                                             |                                                                                                                                                                                                                                                                                                                                                           |
|-------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| If swallowed                                                | : If swallowed: give water to drink (two glasses at most). Seek medical advice immediately. In exceptional cases only, if medical care is not available within one hour, induce vomiting (only in persons who are wide awake and fully conscious), administer activated charcoal (20 - 40 g in a 10% slurry) and consult a doctor as quickly as possible. |
| Most important symptoms and effects, both acute and delayed | : The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11                                                                                                                                                                                                                                     |
| Protection of first-aiders                                  | : For personal protection see section 8.                                                                                                                                                                                                                                                                                                                  |
| Notes to physician                                          | : No data available                                                                                                                                                                                                                                                                                                                                       |

---

## SECTION 5. FIREFIGHTING MEASURES

|                                        |                                                                                                                                                                      |
|----------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media           | : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.                                                            |
| Unsuitable extinguishing media         | : For this substance/mixture no limitations of extinguishing agents are given.                                                                                       |
| Specific hazards during fire fighting  | : Not combustible.<br><br>Ambient fire may liberate hazardous vapours.                                                                                               |
| Hazardous combustion products          | : Sodium oxides<br><br>Selenium/selenium oxides                                                                                                                      |
| Specific extinguishing methods         | : No data available                                                                                                                                                  |
| Further information                    | : Suppress (knock down) gases/vapours/mists with a water spray jet.<br>Prevent fire extinguishing water from contaminating surface water or the ground water system. |
| Special protective equipment for fire- | : Stay in danger area only with self-contained breathing apparatus. Prevent skin contact by keeping a safe                                                           |

---

**SECTION 6. ACCIDENTAL RELEASE MEASURES**

|                                                                     |                                                                                                                                                                                                                                                                                                                                 |
|---------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal precautions, protective equipment and emergency procedures | : Advice for non-emergency personnel:<br>Avoid generation and inhalation of dusts in all circumstances.<br>Avoid substance contact.<br>Ensure adequate ventilation.<br>Evacuate the danger area, observe emergency procedures, consult an expert.<br>Advice for emergency responders:<br>For personal protection see section 8. |
| Environmental precautions                                           | : Do not let product enter drains.                                                                                                                                                                                                                                                                                              |
| Methods and materials for containment and cleaning up               | : Cover drains. Collect, bind, and pump off spills.<br>Observe possible material restrictions (see sections 7 and 10).<br>Take up carefully. Dispose of properly. Clean up affected area.<br>Avoid generation of dusts.                                                                                                         |

---

**SECTION 7. HANDLING AND STORAGE**

For precautions see section 2.2.

|                                           |                                                                                                                                                   |
|-------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|
| Advice on safe handling                   | : Work under hood. Do not inhale substance/mixture.                                                                                               |
| Further information on storage conditions | : Tightly closed.<br>Dry.<br>Keep in a well-ventilated place.<br>Keep locked up or in an area accessible only to qualified or authorised persons. |
| Materials to avoid                        | : Do not store near acids.                                                                                                                        |
| Storage class                             | : 6.1A, Combustible, acute toxic Cat. 1 and 2 / very toxic hazardous materials                                                                    |
| Recommended storage temperature           | : Recommended storage temperature see product label.                                                                                              |

---

**SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION****Ingredients with workplace control parameters**

Sigma - S5261

Page 5 of 16

| Components      | CAS-No.    | Value type<br>(Form of exposure) | Control parameters / Permissible concentration | Basis     |
|-----------------|------------|----------------------------------|------------------------------------------------|-----------|
| Sodium selenite | 10102-18-8 | TWA                              | 0.2 mg/m <sup>3</sup> (selenium)               | OSHA Z-1  |
|                 |            | TWA                              | 0.2 mg/m <sup>3</sup> (selenium)               | ACGIH     |
|                 |            | TWA                              | 0.2 mg/m <sup>3</sup> (selenium)               | NIOSH REL |

**Engineering measures** : No data available

### Personal protective equipment

Respiratory protection : required when dusts are generated.

Our recommendations on filtering respiratory protection are based on the following standards: DIN EN 143, DIN 14387 and other accompanying standards relating to the used respiratory protection system.

Recommended Filter type: : Filter type P3

The entrepreneur has to ensure that maintenance, cleaning and testing of respiratory protective devices are carried out according to the instructions of the producer. These measures have to be properly documented.

#### Hand protection

Material : Nitrile rubber  
Break through time : 480 min  
Glove thickness : 0.11 mm  
Protective index : Full contact  
Manufacturer : KCL 741 Dermatril® L

Material : Nitrile rubber  
Break through time : 480 min  
Glove thickness : 0.11 mm  
Protective index : Splash contact  
Manufacturer : KCL 741 Dermatril® L

Remarks : This recommendation applies only to the product stated in the safety data sheet, supplied by us and for the designated use. When dissolving in or mixing with other substances and under conditions deviating from those stated in EN 16523-1 please contact the

supplier of CE-approved gloves (e.g. KCL GmbH, D-36124 Eichenzell, Internet: [www.kcl.de](http://www.kcl.de)).

- Eye protection : Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).  
Safety glasses
- Skin and body protection : protective clothing
- Hygiene measures : Immediately change contaminated clothing. Apply preventive skin protection. Wash hands and face after working with substance.

---

## SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

- Appearance : powder
- Colour : beige
- Odour : odourless
- Odour Threshold : No data available  
pH : No data available
- Melting point/ range : > 662 °F / > 350 °C  
Method: lit.
- Boiling point/boiling range : No data available
- Flash point : Not applicable
- Evaporation rate : No data available
- Burning rate : No data available
- Self-ignition : > 752 °F / > 400 °C  
1,013.25 hPa  
Method: Relative self-ignition temperature for solids  
not auto-flammable
- Upper explosion limit /  
Upper flammability limit : No data available
- Lower explosion limit /  
Lower flammability limit : No data available

|                                        |                                                                                                                 |

## SECTION 10. STABILITY AND REACTIVITY

|                                    |                                                                                                                                                                    |
|------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity                         | : No data available                                                                                                                                                |
| Reactivity                         | : Contact with acids liberates toxic gas.                                                                                                                          |
| Chemical stability                 | : The product is chemically stable under standard ambient conditions (room temperature) .                                                                          |
| Possibility of hazardous reactions | : A risk of explosion and/or of toxic gas formation exists with the following substances:<br>Acids<br>Generates dangerous gases or fumes in contact with:<br>Acids |

Conditions to avoid : no information available

Incompatible materials : No data available

Hazardous decomposition : In the event of fire: see section 5 products

---

## **SECTION 11. TOXICOLOGICAL INFORMATION**

### **11.1 Information on toxicological effects**

#### **Acute toxicity**

LD50 Oral - Rat - 7 mg/kg

Remarks: Behavioral:Somnolence (general depressed activity).

Lungs, Thorax, or Respiration:Dyspnea.

Diarrhoea

(RTECS)

LC50 Inhalation - Rat - male and female - 4 h - > 0.052 - 0.51 mg/l - dust/mist

(OECD Test Guideline 403)

Dermal: No data available

No data available

#### **Skin corrosion/irritation**

Skin - human keratinocytes

Result: irritating

(OECD Test Guideline 439)

#### **Serious eye damage/eye irritation**

Remarks: No data available

#### **Respiratory or skin sensitization**

Local lymph node assay (LLNA) - Mouse

May cause allergic skin reaction.

(OECD Test Guideline 429)

#### **Germ cell mutagenicity**

Test Type: Ames test

Test system: Salmonella typhimurium

Metabolic activation: with and without metabolic activation

Method: OECD Test Guideline 471

Result: negative

Test Type: Chromosome aberration test in vitro

Test system: Chinese hamster fibroblasts

Metabolic activation: with and without metabolic activation

Method: OECD Test Guideline 473

Result: negative

Test Type: gene mutation test

Test system: mouse lymphoma cells

Metabolic activation: with and without metabolic activation

Method: OECD Test Guideline 476

Result: negative

Test Type: Mutagenicity (mammal cell test): chromosome aberration.

Species: Mouse

Cell type: Bone marrow

Application Route: Intraperitoneal

Result: negative

Remarks: (ECHA)

### **Carcinogenicity**

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

OSHA: No component of this product present at levels greater than or equal to 0.1% is on OSHA's list of regulated carcinogens.

### **Reproductive toxicity**

No data available

### **Specific target organ toxicity - single exposure**

No data available

### **Specific target organ toxicity - repeated exposure**

No data available

### **Aspiration hazard**

No data available

## **11.2 Additional Information**

Salivation, Tremors, Alopecia., Vomiting, Dermatitis

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

The following applies to selenium compounds in general: strong irritant effect on mucous membranes, especially in the eye and in the respiratory tract (bronchopneumonia, pulmonary oedema); selenium acts as an enzyme toxin already after the absorption of small doses; typical garlic odour of perspiration and breath; dermatitis is possible; long-term exposure results in impairments in the intermediary metabolism; toxic effect on liver, kidneys, urinary tract, gastrointestinal tract, spleen, bone marrow, heart, nerves (paralysis symptoms). Selenium is an essential trace element for man.

After absorption:

Other dangerous properties can not be excluded.

We have no description of any toxic symptoms.

This substance should be handled with particular care.

---

## SECTION 12. ECOLOGICAL INFORMATION

### Ecotoxicity

#### Components:

##### **Sodium selenite:**

|                                                                        |                                                                                                                                                      |
|------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| Toxicity to fish                                                       | : LC50 (Pimephales promelas (fathead minnow)): 1.7 mg/l<br>End point: mortality<br>Exposure time: 96 h<br>Remarks: (ECOTOX Database)                 |
| Toxicity to daphnia and other aquatic invertebrates                    | : EC50 (Daphnia magna (Water flea)): 1.1 mg/l<br>End point: mortality<br>Exposure time: 48 h<br>Test Type: static test<br>Remarks: (ECOTOX Database) |
| Toxicity to fish (Chronic toxicity)                                    | : NOEC (Oncorhynchus mykiss (rainbow trout)): 0.16 mg/l<br>End point: Growth inhibition<br>Exposure time: 30 d                                       |
| Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity) | : NOEC (Daphnia magna (Water flea)): 0.24 mg/l<br>End point: mortality<br>Exposure time: 21 d<br>Remarks: (ECOTOX Database)                          |

### Persistence and degradability

#### Components:

##### **Sodium selenite:**

|                  |                                                                                                     |
|------------------|-----------------------------------------------------------------------------------------------------|
| Biodegradability | : Remarks: The methods for determining biodegradability are not applicable to inorganic substances. |
|------------------|-----------------------------------------------------------------------------------------------------|

### Bioaccumulative potential

#### Components:

##### **Sodium selenite:**

|                                        |                                                                                                                          |
|----------------------------------------|--------------------------------------------------------------------------------------------------------------------------|
| Bioaccumulation                        | : Species: Lepomis macrochirus<br>Bioconcentration factor (BCF): 1,850<br>Exposure time: 120 d<br>Concentration: 10 µg/l |
| Partition coefficient: n-octanol/water | : Remarks: Not applicable                                                                                                |

**Mobility in soil**

No data available

**Other adverse effects****Product:**

Ozone-Depletion Potential : Regulation: 40 CFR Protection of Environment; Part 82 Protection of Stratospheric Ozone - CAA Section 602 Class I Substances  
Remarks: This product neither contains, nor was manufactured with a Class I or Class II ODS as defined by the U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App.A + B).

**Endocrine disrupting properties**

No data available

---

**SECTION 13. DISPOSAL CONSIDERATIONS****Disposal methods**

Waste from residues : Waste material must be disposed of in accordance with the national and local regulations. Leave chemicals in original containers. No mixing with other waste. Handle uncleaned containers like the product itself.

---

**SECTION 14. TRANSPORT INFORMATION****International Regulations****IATA-DGR**

UN/ID No. : UN 2630  
Proper shipping name : Selenites  
(Sodium selenite)  
Class : 6.1  
Packing group : I  
Labels : Division 6.1 - Toxic substances  
Packing instruction (cargo : 673  
aircraft)  
Packing instruction : 666  
(passenger aircraft)

**IMDG-Code**

UN number : UN 2630  
Proper shipping name : SELENITES  
(Sodium selenite)  
Class : 6.1  
Packing group : I  
Labels : 6.1  
EmS Code : F-A, S-A  
Marine pollutant : yes

## Transport in bulk according to IMO instruments

Not applicable for product as supplied.

## National Regulations

### 49 CFR

UN/ID/NA number : UN 2630  
Proper shipping name : Selenites  
(Sodium selenite)  
Class : 6.1  
  
Packing group : I  
Labels : Division 6.1 - Toxic substances  
ERG Code : 151  
Marine pollutant : no  
Poison Inhalation Hazard : No

### Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

## SECTION 15. REGULATORY INFORMATION

### CERCLA Reportable Quantity

| Components      | CAS-No.    | Component RQ (lbs) | Calculated product RQ (lbs) |
|-----------------|------------|--------------------|-----------------------------|
| Sodium selenite | 10102-18-8 |                    | 100                         |
| Sodium selenite | 10102-18-8 | 100                | 100                         |

### SARA 304 Extremely Hazardous Substances Reportable Quantity

| Components      | CAS-No.    | Component RQ (lbs) | Calculated product RQ (lbs) |
|-----------------|------------|--------------------|-----------------------------|
| Sodium selenite | 10102-18-8 | 100                | 100                         |

### SARA 302 Extremely Hazardous Substances Threshold Planning Quantity

| Components      | CAS-No.    | Component TPQ (lbs) |
|-----------------|------------|---------------------|
| Sodium selenite | 10102-18-8 | 10000               |
| Sodium selenite | 10102-18-8 | 100*                |

\*: Solid in the molten or powdered form (particles < 100 microns), in solution, or meeting the NFPA reactivity criteria

**SARA 311/312 Hazards** : Acute Health Hazard

**SARA 313** : The following components are subject to reporting levels established by SARA Title III, Section 313:

|                 |            |                  |
|-----------------|------------|------------------|
| Sodium selenite | 10102-18-8 | >= 90 - <= 100 % |
|-----------------|------------|------------------|

### Clean Air Act

This product neither contains, nor was manufactured with a Class I or Class II ODS as defined by the U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App.A + B).

The following chemical(s) are listed as HAP under the U.S. Clean Air Act, Section 112 (40 CFR 61):

|                 |            |                  |
|-----------------|------------|------------------|
| Sodium selenite | 10102-18-8 | >= 90 - <= 100 % |
|-----------------|------------|------------------|

This product does not contain any chemicals listed under the U.S. Clean Air Act Section 112(r) for Accidental Release Prevention (40 CFR 68.130, Subpart F).

This product does not contain any chemicals listed under the U.S. Clean Air Act Section 111 SOCM I Intermediate or Final VOC's (40 CFR 60.489).

### Clean Water Act

The following Hazardous Substances are listed under the U.S. CleanWater Act, Section 311, Table 116.4A:

|                 |            |                  |
|-----------------|------------|------------------|
| Sodium selenite | 10102-18-8 | >= 90 - <= 100 % |
|-----------------|------------|------------------|

The following Hazardous Chemicals are listed under the U.S. CleanWater Act, Section 311, Table 117.3:

|                 |            |                  |
|-----------------|------------|------------------|
| Sodium selenite | 10102-18-8 | >= 90 - <= 100 % |
|-----------------|------------|------------------|

This product contains the following toxic pollutants listed under the U.S. Clean Water Act Section 307

|                 |            |                  |
|-----------------|------------|------------------|
| Sodium selenite | 10102-18-8 | >= 90 - <= 100 % |
|-----------------|------------|------------------|

This product does not contain any priority pollutants related to the U.S. Clean Water Act

### US State Regulations

#### Massachusetts Right To Know

|                 |            |
|-----------------|------------|
| Sodium selenite | 10102-18-8 |
|-----------------|------------|

#### Pennsylvania Right To Know

|                 |            |
|-----------------|------------|
| Sodium selenite | 10102-18-8 |
|-----------------|------------|

#### Maine Chemicals of High Concern

Product does not contain any listed chemicals

#### Vermont Chemicals of High Concern

Product does not contain any listed chemicals

#### Washington Chemicals of High Concern

Product does not contain any listed chemicals

### The components of this product are reported in the following inventories:

US TSCA : All substances listed as active on the TSCA inventory

### TSCA list

No substances are subject to a Significant New Use Rule.

No substances are subject to TSCA 12(b) export notification requirements.
